**Acceptance of General Requirements:**

Benecom is in agreement and accepts the General Requirements identified in the Bogalusa City Schools RFP for Northside Parent and Community Center Wireless Network.

We have examined and fully comprehend the scope and conditions of the Bogalusa City Schools RFP for Northside Parent and Community Center Wireless Network.. Benecom agrees to furnish the Bogalusa City Schools said solution for the payment amount listed below in the Price Proposal section.

## Wireless Price Proposal for Northside Parent and Community Center:

**Meru Solution bundles to included 18 AP332i Wireless Access Points, 18 Licenses for AP's, 1-year Software Support for the AP licenses is included at no extra charge. AP license Support Requires an Active Support Contract on the Attached Controller. Pricing includes all Labor, which will be installed by a Meru Professional Service Engineer & Benecom Network Engineer.**

**Benecom will provide and install a total of 18 new wireless access points throughout the campus. There are 10 existing access points which will be replaced with new models. There are also 8 other locations where a new access point will be installed. These 8 locations will require new Cat5e cabling from the nearest IDF. All new cables will be properly terminated, labeled, and tested. All work performed will be in accordance with industry codes and standards.**

**\*Network Switch is not included in this price. Benecom will use existing switch should there be 8 available ports. If ports are not available a switch will be needed at an additional price.**

**Price Quote: \$13,497.00**
