

*"Shelter Planners of America"*

®

**July 18, 2024**

**Statement of Qualifications**

**Ascension Parish Animal Services Center**

**STANDARD FORM: APG-1001**

(10/2008)

**STANDARD FORM: APG-1001**

**Professional Engineering and Related Services**

1. Project title <b>Animal Services Center</b>	2. Project number
3a. Firm (as registered with the Louisiana Secretary of State) and mailing address of the office to perform work  <b>FMD Architects, Inc. dba SHELTER PLANNERS OF AMERICA 1000 Texan Trail Ste 260 Grapevine, TX 76051</b>	3b. Name, title, telephone number, and e-mail address of the official with <b>signing authority</b> for this contract <b>Melanie Friedman, Pres. 330.836.2343, mfriedman@fmdarchitects.com</b>  3c. Name, Title, telephone number, e-mail address and registration number of full-time LA licensed engineer in responsible charge of the project (not required for non-engineering projects)  <b>Melanie Friedman, Principal, 817.265.8522, mfriedman@sposausa.com, 10127 (Architect)</b>
3d. I certify that the following information is accurate and complete to the best of my knowledge (must be same person as 3b):  <div style="display: flex; justify-content: space-between;"> <span>Signature: <u><i>Melanie Friedman</i></u></span> <span>Date: <u>July 13, 2024</u></span> </div>	
4. Full-time personnel on Firm's payroll who are located at the primary work location identified in 3a above:	
a. <b>Architects</b> , with current Louisiana <b>Architectural</b> registration	<u>1</u>
b. Environmental Engineers, with current Louisiana P.E. registration (not included in 4a)	<u>          </u>
c. Land Surveyors, with current Louisiana P.L.S. registration	<u>          </u>
d. Engineers In Training, with current Louisiana E.I. registration	<u>          </u>
e. Designers/Draftsmen <b>Architectural degreed</b>	<u>3</u>
f. Survey Party Chiefs	<u>          </u>
g. Real Estate Professionals (Agents and Certified Appraisers)	<u>          </u>
h. Other personnel not included in above categories <b>Admin</b>	<u>1</u>
Total personnel at primary work location (sum of a – h)	<u>5</u>
5. Full-time personnel on Firm's payroll, not located at the primary work locations, to be used on this project:	
a. <b>Architects</b> , with current Louisiana Architectural registration	<u>1</u>
b. Environmental Engineers (not included in 5a)	<u>          </u>
c. Land Surveyors, with current Louisiana P.L.S. registration	<u>          </u>
d. Engineers In Training, with current Louisiana E.I. registration	<u>          </u>
e. <b>Cost Estimator/Scheduler/Quality Control/ Principal</b>	<u>1</u>
f. Survey Party Chiefs	<u>          </u>
g. Real Estate Professionals (Agents and Certified Appraisers)	<u>          </u>
h. Other personnel not included in above categories <b>Admin</b>	<u>1</u>
Total personnel not located at the primary work location (sum of a – h)	<u>3</u>

6. Do you presently have sufficient staff to perform these services in the designated time frame? (Yes/No)  
Yes, we have a total of 27 staff between our two locations so if the committed staff need assistance we have plenty of support opportunities and are fully prepared to meet all deadlines

7. Identify the element of work (as defined in the advertisement), and the % of the element to be performed by the firm. Also, identify % of work for the overall project to be performed by the firm (must be at least 50%).

100% of the architectural drawings and specifications will be completed by Shelter Planners of America. Our total project % will be approximately 60% of the total project including all

8. Do you intend to use a Sub-consultant(s)?  yes  no

(For use by the Prime Consultant only)

All Sub-consultants/Associates listed for this project must attach a signed Form APG-1001

Signed forms from sub-consultants are at the back of this proposal

Name and address	Identify the element of work (as defined in the advertisement), and the % of the element to be performed by the Sub-consultant Also, identify the % of work for the overall project to be performed by the Sub-consultant.	Worked with prime before? (Yes/No)
1.  TBD in collaboration with Ascension Parish	100% of civil engineering, or approximately 15% of total A/E fees	No, we normally team with a local civil
2.  Philippe Lalonde P.E. 6617 Red Bud Rd. Fort Worth, TX 76135	100% of structural engineering, or approximately 5% of total A/E fees	Yes, many times
3.  Baird, Hampton & Brown 6300 Ridglea Place, Suite 700, Fort Worth, Texas 76116	100% of MEP engineering, or approximately 20% of total A/E fees	Yes, many times
4.		
5.		

9. Staffing Plan – A Diagram showing all personnel specifically assigned to each work element of the project, their duties, and immediate Supervisors. The Staffing Plan should also include the same information for Sub-consultants (if applicable).

Refer to individual company staffing plans for sub-consultants

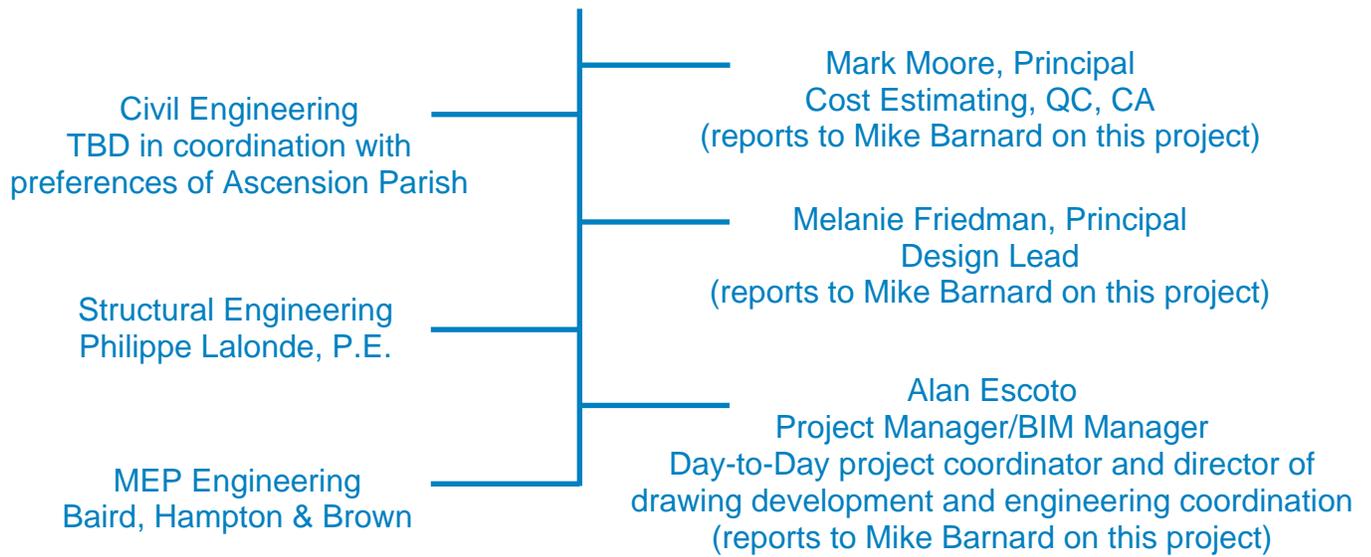

*“Shelter Planners of America”*

Key Project Personnel, not including drafting, support, and administrative professionals

Michael Barnard, Principal  
Animal Shelter Design Principal-in-Charge  
Project Overseer and Director

10. Brief résumé of key persons anticipated to work on this project

g. Specific experience and qualifications relevant to the proposed project:

**PROFESSIONAL AFFILIATIONS**  
 AAHA  
 Fear Free Certified Professional  
 Construction Specification Institute

**EXPERIENCE OVERVIEW**  
 As a Principal with more than 42 years of experience, Mark has been with FMD (SPA's parent company) for 25 years. He believes that every project is unique and should meet the needs of each individual client. He also believes that a positive experience is paramount to the overall outcome and success of a project. Through his specialized experience in over 16 years in the animal care industry, he brings together a wealth of knowledge and professionalism that goes well beyond the basic structure. He has built strong relationships with the best vendors in the industry for equipment, turf, cleaning protocols and products, as well as medical gas and HVAC system designs. He also has helped clients to get them connected to appropriate lenders for financing, bringing a complete solution for all project needs.

g. Specific experience and qualifications relevant to the proposed project:

**PROFESSIONAL AFFILIATIONS**  
Fear Free Certified Professional  
LEED Accredited Professional  
NCARB #61889

**EXPERIENCE OVERVIEW**  
Melanie’s great passion for both architecture and learning has driven her to excel in both her education and her career. As a Principal with 28 years of experience (all with FMD, SPA’s parent company), continuing education about products, trends, and the newest environmental design strategies remain a top priority. Her creativity and attention to detail enhance her award winning designs, but what Melanie’s clients appreciate most is her willingness to listen and respond to their needs to make every design represent the style of each client.

g. Specific experience and qualifications relevant to the proposed project:

**PROFESSIONAL AFFILIATIONS**  
 Arlington Chamber of Commerce -Young Professional Group

**EXPERIENCE OVERVIEW**  
 After 9 years working with Shelter Planners of America, Mr. Escoto is experienced in many aspects of shelter design and animal equipment products. During his time at SPA, Mr. Escoto worked on a variety of animal shelter, animal hospitals, and boarding facilities around the United States. Mr. Escoto assisted in the needs assessment of multiple existing shelters and the development of new plan designs to fit the needs of the client. Mr. Escoto also brings an expertise in animal equipment such as kenneling, cages, medical equipment, and general equipment needed to run the daily operation of animal care facilities. His expertise allows him the ability to bring knowledge of vendors and industry standards to every client.

11. Work by Firm which best illustrates project experience relevant to this project (List not more than 10 Projects)

a. Project name & location	b. Project description	c. Nature of Firm's responsibility & firm members involved	d. Client's name, address, and telephone number	e. Completion date or Percent Complete & cost in thousands
Central Texas SPCA Leander, TX	New construction of a 4,666 SF animal shelter facility.	Architect of Record. Michael Barnard, Mark Moore, Melanie Friedman and Alan Escoto are all involved.	Michelle Zoeller, President mzoeller@centraltexaspc a.org Phone: (512) 260-7722	Design 60% complete, construction to start in 2024 \$2.1M
Arlington Animal Service Center Arlington, TX	New construction of a 20,000 SF animal shelter facility.	Architect of Record. Michael Barnard was involved.	Jay Sabatucci, Former Animal Services Manager jaysbasicclass@gmail.com Phone: (682)241 0905	2009 \$4.9M
Humane Education Society Chattanooga, TN	New construction of a 30,474 SF animal shelter facility.	Animal Shelter Design Consultant to local Franklin Architects who was the AOR. Michael Barnard and Alan Escoto were both involved.	Courtney Kremer, Director ckremer@springdalear.gov Phone: (479)263 1873	2021 \$9.8M
Humane Society of Summit County Cuyahoga Falls, OH	New construction of a 25,000 SF animal shelter facility.	Architect of Record. Mark Moore and Melanie Friedman are both involved.	Joleen Cicchinelli, Board Vice Chair, Owner's Rep jojocicch@gmail.com Phone: (330)760 2053	Construction completing fall, 2024 \$10M
Humane Society for Hamilton County Fishers, IN	New construction of a 40,000 SF animal shelter facility.	Animal Shelter Design Consultant to local Curran Architecture, the AOR. Michael Barnard and Alan Escoto were both involved.	Courtney Kremer, Director ckremer@springdalear.gov Phone: (479)263 1873	2021 \$10M

11. Work by Firm which best illustrates project experience relevant to this project (List not more than 10 Projects)

a. Project name & location	b. Project description	c. Nature of Firm's responsibility & firm members involved	d. Client's name, address, and telephone number	e. Completion date or Percent Complete & cost in thousands
Nueces County Animal Care Center Corpus Christi, TX	New construction of a 6,365 SF animal shelter facility.	Architect of Record. Michael Barnard and Alan Escoto were both involved.	Bert Perez, P.E Construction Engineer Bert.Perez@nuecescountytx.gov Phone: (361)-888-0490	Design complete, starting construction 2024 \$3.5M
Operation Kindness Carrollton, TX	32,000 total square feet, addition and renovation to this no-kill animal shelter.	Architect of Record. Michael Barnard and Alan Escoto were both involved.	Jim Hanophy, Former CEO jhanophy@abilityconnection.org Phone: (682) 300 6256	2021 \$10.7M
The Linda Kelley Animal Shelter Prince Frederick, Maryland	New construction of a 13,000 SF animal shelter facility plus a 1,200 SF barn for large animals and an outdoor event pavilion.	Architect of Record. Mark Moore and Melanie Friedman were involved.	Wilson Freeland-Director of General Services Phone: (401) 535 1600 ext. 2326	2018 \$7M
Chatham County Animal Services Pittsboro, NC	Addition of 11,600 SF and renovation of 4,000 SF for a total of 15,600 SF of completely updated and new animal shelter facility.	Animal Shelter Design Consultant to local PNP Design Group, LLC who was the AOR. Michael Barnard and Alan Escoto were both involved.	Brian Stevens, Facilities and Construction Director brian.stevens@chathamnc.org Phone: (919)548 2008	2020 \$5.6M
Williamson County Animal Center Franklin, TN	New construction of a 32,000 SF animal shelter facility.	Animal Shelter Design Consultant to local 906 Studio Architects who was the AOR. Michael Barnard and Alan Escoto were both involved.	Ondrea Johnson, Director ondrea.johnson@williamscounty-tn.gov Phone: (615)927 5450	2022 \$12.8M

12. All work by Firm (all offices) currently being performed for or selected by Ascension Parish Government (as Prime or Sub-consultant)

a. Project name, and location*	b. Nature of your Firm’s responsibility (also identify if prime or Sub-consultant)	c. Percent complete (by phase/type of work)	d. Contract fees (in thousands)** (by phase/type of work)		
			Total	Remaining	
Parish of Ascension Animal Shelter Consulting (various locations)	Perform a Needs Assessment, Conceptual Design, and 3 Site Evaluations	100% complete	\$32,418	\$0 invoiced 100% on June 30th, 2024	
					
* For master contracts, list open task orders individually ** Do not include Sub-consultant’s fees			Total	\$32,418	\$0

13. Use this space to provide any additional information or description of resources supporting your firm's qualifications for the proposed project. This section may also be used to submit proposed prices, if required. A maximum of two (2) additional sheets may be utilized to answer this question. All other sheets not specifically requested shall be excluded.

(1) Technical Experience – We have worked on over 750 animal shelter projects and have a long history of designing successful animal shelter facilities. We are utilized around the country as an animal shelter design specialist and have collaborated in this role for many architectural firms.

Our Founder also worked for the HSUS for eleven years doing all shelter design consulting for groups building new shelters. During these eleven years with HSUS, he served as nationwide Architectural Design Consultant. He consulted with hundreds of humane societies, SPCA's and animal control agencies on the design of new or remodeled shelters. He is the author of the first significant publication on animal shelter design. Many shelters around the country have been built, following the plans in his book. This experience allowed him to observe the very best in designs, but perhaps more importantly, he has seen how to avoid the design problems that occur over and over again in shelters.

**REDUCE STRESS** - Larger more comfortable cages and kennels reduces barking and increases adoptions better separation of animals and flow of animals, outdoor play and exercise areas, sound control.

**GOOD FLOOR DRAINAGE** - Poor floor drainage is one of the biggest complaints we hear. Our buildings are designed to provide positive drainage in all areas without cross contamination by utilizing individual drains and eliminating trench drains.

**PROPER AIR SYSTEMS** - are keys to healthy animals. Most shelter disease is caused by airborne viruses. In the past, shelters used air systems that re-circulated air from room to room, resulting in many sick animals. We have pioneered the latest mechanical systems to provide pure uncontaminated air to every animal area. Air is exchanged at a specific rate (avoiding drafts) and heat or cooling energy is recaptured to lower your utility bills as much as possible.€ We design systems to pass the fresh air across the noses of the public and staff towards the animals and then exhausted.€ This helps control odor and encourages the public to stay longer to look for a companion animal.

**MAINTAINABILITY** - A successful animal shelter must be a clean one. We will propose a myriad of materials and finishes (and their variable costs) that are easy to maintain and hold up under years of heavy use.

(2) References – In addition to the contacts listed in our 10 example projects, below are three references:

*"I can give SPOA my strongest recommendation without hesitation. They provided excellent service to Fort Bend County on this project and I would be happy to work with them again in the future."*

- James Knight, Dir. of Facilities, Mgmt & Planning, Fort Bend County, TX 281-238-3097

*"We look forward to spending many successful years in our new shelter. We could not have done it without Shelter Planners of America's processes, controls and professionalism - all of which created an outstanding shelter for our organization and community."*

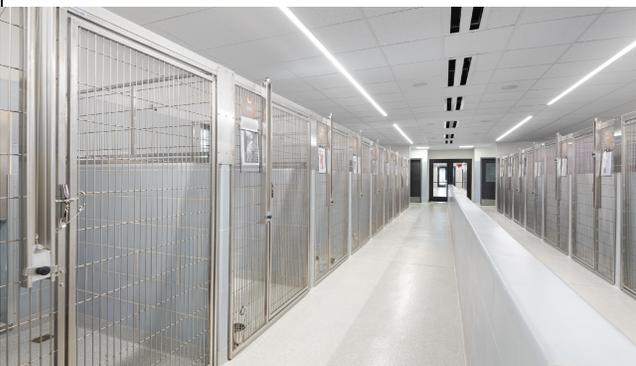

- Sue Ann Werling, President, Brown County Humane Society, IN 812-988-7362

*"We are very pleased with our new shelter's functional and efficient design and layout. And we are very excited to start this new chapter of the City's Animal Control Department"*

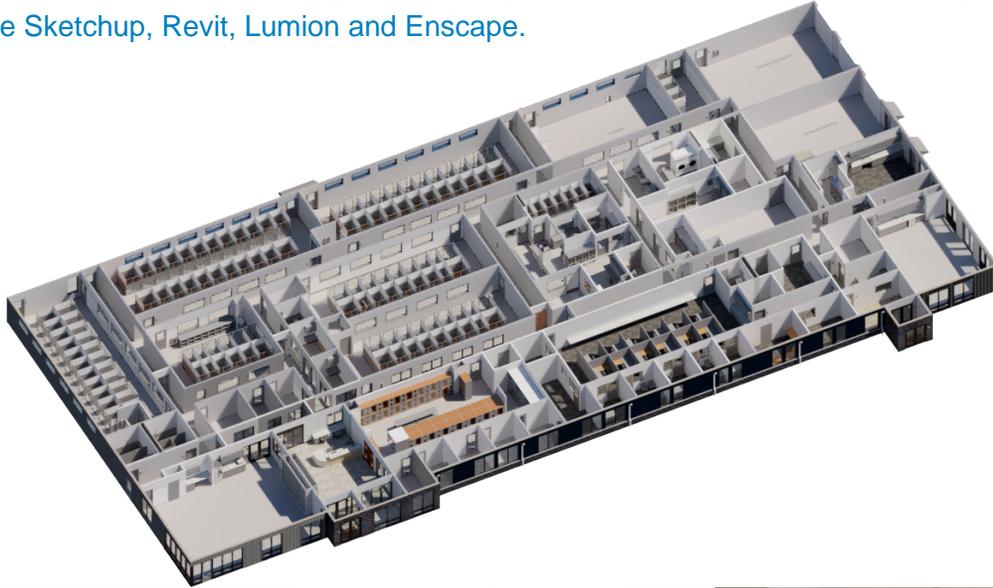

- Jeffrey G. Richardson, Community Development Director, Vicksburg, MS 601-636-3574

(3) Availability – Our firm just completed several needs assessments and two sets of construction documents. This project is perfect timing for to be able to start immediately.

(4) Louisiana experience – We have completed the needs assessment, conceptual design and site evaluations for this project and are also currently working on two interior animal hospital renovation projects in Hammond, LA and Ponchatoula, LA, respectively.

(5) Strong Visualization Skills – Not just two-dimensional plans. At Shelter Planners of America, we have worked with countless clients to help them better visualize their future facility through a combination of photo imagery, 3d shoebox views, 3d interior and exterior black and white views, 360 degree renderings and photo-realistic rendered images. We utilize Sketchup, Revit, Lumion and Enscape.

6. Do you presently have sufficient staff to perform these services in the designated time frame? (Yes/No)

Yes, our schedule will accommodate the required structural design requirements.

7. Identify the element of work (as defined in the advertisement), and the % of the element to be performed by the firm. Also, identify % of work for the overall project to be performed by the firm (must be at least 50%).

100% of the animal shelter specific structural engineering design aspects of this project will be completed by Philippe Lalonde, P.E..

8. Do you intend to use a Sub-consultant(s)? \_\_\_\_\_ yes  no  
 (For use by the Prime Consultant only)  
 All Sub-consultants/Associates listed for this project must attach a signed Form APG-1001

Name and address	Identify the element of work (as defined in the advertisement), and the % of the element to be performed by the Sub-consultant Also, identify the % of work for the overall project to be performed by the Sub-consultant.	Worked with prime before? (Yes/No)
1.		
2.		
3.		
4.		
5.		

9. Staffing Plan – A Diagram showing all personnel specifically assigned to each work element of the project, their duties, and immediate Supervisors. The Staffing Plan should also include the same information for Sub-consultants (if applicable).

Philippe Lalonde, P.E.  
Engineer of Record

Payton Burdine  
Draftsman  
Completes the CAD requirements  
for the project.

Philippe Lalonde, P.E.  
Completes the structural engineering  
design and calculations for the  
project and coordinates the construction documents

10. Brief résumé of key persons anticipated to work on this project	
a. Name, title & domicile Philippe Lalonde, P.E. Fort Worth, TX	b. Position or Assignment for this project Structural Engineer of Record
c. Name of Firm by which employed full time Philippe Lalonde, P.E. Fort Worth, TX	d. Years experience: 31 With this Firm: 20 With other Firms: 9
e. Education: Degree(s) / Years / Specialization Bachelor of Science in Structural Engineering University of California, San Diego, 1993	f. Active registration: Year registered: 2004/2004 Branch: Structural State: TX/LA License No.: 89364/31323
g. Specific experience and qualifications relevant to the proposed project:	
<p>Mr. Lalonde provides structural engineering services and coordinates production efforts for projects. An effective communicator with clients and peers, he establishes a clear scope of work, develops an acceptable schedule and anticipates and addresses project issues. With more than 30 years of experience in the consulting structural engineering field, his expertise includes steel, concrete and wood design.</p> <ul style="list-style-type: none"> <li>•Selected Animal Shelter Projects</li> <li>•Operation Kindness – Carrollton, TX (27,976 sf) consisted of multiple building on a sloping site requiring walkout basement design. The steel and concrete structures were developed for multiple kennel configurations and durability as well as ease of cleanup. There were offices and a medical wing within the facility.</li> <li>•Fayetteville Regional Humane Society – Washington Courthouse, OH (5,741sf) consisted of a wood truss and stud wall system. Kennels were developed to be drained within masonry cells.</li> <li>•City of Ingleside Animal Shelter – Ingleside, TX (4,925sf) was developed in the hurricane zone of coastal Texas. The wood truss and stud wall design made for an efficient use of structure in the high wind zone. Coordination was important with the geotechnical engineering report for the sandy soils.</li> </ul>	

11. Work by Firm which best illustrates project experience relevant to this project (List not more than 10 Projects)

a. Project name & location	b. Project description	c. Nature of Firm's responsibility & firm members involved	d. Client's name, address, and telephone number	e. Completion date or Percent Complete & cost in thousands
Operation Kindness Carrollton, TX	New construction of a 27,976 SF animal shelter facility.	Engineer of Record. Philippe Lalonde	Shelter Planners of America mike@spoausa.com 817-881-1510	2019 \$8.1M
Nueces County Animal Care Center Corpus Christi, TX	New construction of a 6,365 SF animal shelter facility.	Engineer of Record. Philippe Lalonde	Shelter Planners of America mike@spoausa.com 817-881-1510	Design complete, starting construction 2024 \$3.5M
Brown County Humane Soc. Nashville, IN	New construction of an 8,152 SF animal shelter facility.	Engineer of Record. Philippe Lalonde	Shelter Planners of America mike@spoausa.com 817-881-1510	2020 \$2.4M
Montgomery County Humane Soc. Montgomery, Co., TN	New construction of an 24,455 SF animal shelter facility.	Engineer of Record. Philippe Lalonde	Shelter Planners of America mike@spoausa.com 817-881-1510	Design Complete, Starting Construction 2024 \$9.4M
Tippacano County Humane Soc. Lafayette Co., IN	New construction of an 16,743 SF animal shelter facility.	Engineer of Record. Philippe Lalonde	Shelter Planners of America mike@spoausa.com 817-881-1510	2023 \$4.4M

engineering and surveying

**10. Brief résumé of key persons anticipated to work on this project**

<p>a. Name, title &amp; domicile Richard Watters, PE, Principal Fort Worth, Texas</p>	<p>b. Position or Assignment for this project Principal-in-Charge</p>
<p>c. Name of Firm by which employed full time Baird, Hampton &amp; Brown, Inc.</p>	<p>d. Years experience: <u>27</u> With this Firm: <u>21</u> With other Firms: <u>6</u></p>
<p>e. Education: Degree(s) / Years / Specialization BS, 1997, Mechanical Engineering, University of Texas a El Paso MS, 2001, Mechanical Engineering, Texas A&amp;M University</p>	<p>f. Active registration: Year registered: <u>2023</u> Branch: <u>Mechanical</u> State: <u>LA</u> License No.: <u>PE.0048342</u></p>

g. Specific experience and qualifications relevant to the proposed project:

Richard Watters came to BHB after working with a design/build contractor in the area for over two years. As an active member of BHB’s leadership team, Richard manages some of the firm’s multiple long-term engineering projects including healthcare, commercial, oil and gas, retail, and municipal. He is experienced in energy metering, energy studies, design/build, HVAC, plumbing, and medical gas design along with construction administration.

**Relevant Client Experience:**

 Cleveland Mississippi CBC Animal Shelter  
 Vicksburg Mississippi Animal Shelter

10. Brief résumé of key persons anticipated to work on this project

<p>a. Name, title &amp; domicile                  Paul Morris, Associate                  Fort Worth, Texas</p>	<p>b. Position or Assignment for this project                  Electrical Project Manager</p>
<p>c. Name of Firm by which employed full time                  Baird, Hampton &amp; Brown, Inc.</p>	<p>d. Years experience: <u>11</u>                  With this Firm: <u>11</u> With other Firms: <u>0</u></p>
<p>e. Education: Degree(s) / Years / Specialization                  BS, 2011, Electrical Engineering, Union University</p>	<p>f. Active registration: Year registered: <u>2021</u>                  Branch: <u>Electrical</u> State: <u>LA</u>                  License No.: <u>PE.0045859</u></p>

g. Specific experience and qualifications relevant to the proposed project:

Paul Morris began his career at BHB as a Graduate Electrical Engineer. He has over 10 years of electrical experience in design and construction administration and currently works on many of the firm’s municipal, multi-family, and hospitality projects. In addition, he is responsible for the design of fire alarm systems and major electrical equipment installation and replacement in renovation projects as part of the firm’s IDIQ contract with Tarrant County. He is also part of the core team here at BHB working to implement data-driven power systems such as Power over Ethernet in facilities looking to simplify their low-voltage power systems.

**Relevant Client Experience:**  
 City of Hurst Animal Shelter  
 City of Carrollton Operation Kindness

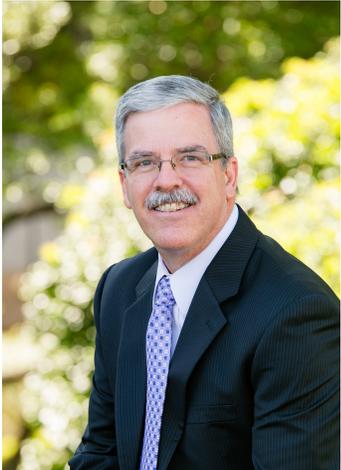

**10. Brief résumé of key persons anticipated to work on this project**

<p>a. Name, title &amp; domicile Ken Randall, Principal Fort Worth, Texas</p>	<p>b. Position or Assignment for this project Electrical Designer</p>
<p>c. Name of Firm by which employed full time Baird, Hampton &amp; Brown, Inc.</p>	<p>d. Years experience: <u>41</u> With this Firm: <u>29</u> With other Firms: <u>12</u></p>
<p>e. Education: Degree(s) / Years / Specialization BS, 1998, Electrical Engineering, University of Texas at Arlington</p>	<p>f. Active registration: Year registered: <u>1999</u> Branch: <u>Electrical</u> State: <u>TX</u> License No.: <u>84937</u></p>

g. Specific experience and qualifications relevant to the proposed project:

Ken Randall's reputation as a solutions-oriented electrical engineer has enabled him to evaluate and design some of the most sophisticated commercial and industrial electrical systems in North Texas. His projects range from small remodels to new one million square-foot buildings. As Chief Executive Officer, Ken leads the development of BHB's long and short term strategies along with managing overall business operations. His approach to projects and client service continually strives to meet owner vision, and to design with new concepts and technologies for better buildings in mind.

10. Brief résumé of key persons anticipated to work on this project

<p>a. Name, title &amp; domicile Blake Roberts, Graduate Electrical Engineer</p>	<p>b. Position or Assignment for this project Electrical Designer</p>
<p>c. Name of Firm by which employed full time Baird, Hampton &amp; Brown, Inc.</p>	<p>d. Years experience: 36 With this Firm: 30 With other Firms: 6</p>
<p>e. Education: Degree(s) / Years / Specialization BS, 1988, Electrical Engineering, University of Texas at Arlington</p>	<p>f. Active registration: Year registered: None Branch: _____ State: _____ License No.: _____</p>

g. Specific experience and qualifications relevant to the proposed project:

Blake Roberts has over 25 years of experience in electrical design and construction administration. He has provided power, lighting and low voltage designs for a wide variety of projects. Mr. Roberts specializes in electrical design for historical renovations, with extensive experience working on historical preservation projects for the firm. Prior to joining BHB, he was an Electrical Field Engineer/Inspector at DFW Airport where he worked on a 32 million dollar taxiway project, which included six miles of high voltage aviation lighting circuits. He was trained in airfield operations, transformer vault lock-out procedures, and worked closely with the GC, airfield operations, and DFW facilities maintenance personnel on a daily basis.

g. Specific experience and qualifications relevant to the proposed project:

Sean has a passion for animals and the design of animal care facilities is one of his specialties. These unique facilities include animal shelters, adoption centers, vet clinics, and pet daycares. He has worked with various municipalities, Shelter Planners of America (SPOA), and non-profits on these animal care facilities. Sean provides mechanical engineering for specific HVAC technologies used in these facilities to provide clean, healthy, and comfortable spaces for the animals, staff, and those who visit.

Fort Bend County Animal Shelter Fort Bend County, Texas	BHB provided the MEP engineering design for a new 4,200 SF shelter which includes 72 indoor kennels, a surgery suite, quarantine area and administrative and support spaces.	Mechanical and Electrical Engineering. Ken Randall, PE Richard Watters, PE Sean Rath	Fort Bend County Animal Shelter 301 Jackson St Richmond, TX 77469 281-342-3411	Construction completed in 2018.
Harker Heights Animal Shelter Harker Heights, Texas	BHB provided the CMEP design of a 3,500 SF addition to an existing single-story animal shelter. The addition included three procedure rooms with piped medical gases, a recovery area, waiting room, and kennel expansions.	Civil, Mechanical and Electrical Engineering. Ken Randall, PE Richard Watters, PE Sean Rath	Harker Heights Animal Shelter 403 Indian Trail Harker Heights, TX 76548 254-953-5472	Construction completed in 2018.
Operation Kindness Addition & Renovation Carrollton, Texas	BHB provided the MEP design for the addition and renovation of an existing animal shelter. Design included a two-story medical building, and dog kennels, Bear's Den.	Mechanical and Electrical Engineering Ken Randall, PE Richard Watters, PE Paul Morris, PE Blake Roberts Sean Rath	Operation Kindness 3201 Earhart Drive Carrollton, Texas 75006 972-418-7297	Construction completed in 2020.
Paw Pad MEP Design Services Fort Worth, Texas	BHB provided the MEP engineering design for the renovation of existing 1,820 SF metal building, and two additions totaling another 4,470 SF.	Mechanical and Electrical Engineering Ken Randall, PE Richard Watters, PE Blake Roberts Sean Rath	The Paw Pad 5201 White Settlement Rd. Fort Worth, TX 76114 817-386-0884	Construction completed in 2020.
Wichita Falls Animal Shelter Wichita Falls, Texas	BHB provided the MEP engineering design for a new 12,000 SF animal reclaim facility. The new facility includes indoor kennels, animal quarantine areas, work rooms, break room and offices.	Mechanical and Electrical Engineering Ken Randall, PE Les Brown, PE Sean Rath	Wichita Falls Animal Shelter 1207 Hatton Rd Wichita Falls, TX 76302 940.761.8894	Construction completed in 2011.

13. Use this space to provide any additional information or description of resources supporting your firm’s qualifications for the proposed project. This section may also be used to submit proposed prices, if required. A maximum of two (2) additional sheets may be utilized to answer this question. All other sheets not specifically requested shall be excluded.

The multi-disciplinary firm of BHB provides the complete, integrated services of: civil, structural, and MEP engineering; land surveying; and landscape architecture - all under one roof. Our teams work collaboratively to provide our clients with innovative, sustainable design solutions in Texas and throughout the United States. BHB principals and associates are at the “hands-on” center of all planning, direction, and design of every project.

**Animal Shelter Experience:**

With dogs and cats coming to and from a shelter every single day, it is crucial to keep the air clean and the spaces habitable to reduce the stress of the animals, as well as transferable diseases and bacteria. At BHB, we have designed dozens of animal care facilities including shelters, adoption centers, vet clinics, pet daycares, and even the occasional cattle, swine or horse barn. Our mechanical and electrical engineers have extensive experience designing MEP systems specifically for animal facilities, and we understand the specific processes that need to be implemented for each aspect of engineering to ensure the health of the animals that reside in the shelters. Our animal shelter experience includes, but it not limited to, the following:
