Date: 9/29/23

ARTICLE 1 – BID RECIPIENT

1.01 This Bid is submitted to:

Jackson County Utility Authority (JCUA)
1225 Jackson Ave.
Pascagoula, MS 39567

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 – BIDDER'S ACKNOWLEDGEMENTS

- 2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for **60** days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.
- 2.02 In submitting this Bid, Bidder acknowledges and accepts Contractor's representations as more fully set forth in the Agreement Form.
- 2.03 In submitting this Bid, Bidder certifies Bidder is qualified to do business in the State of Mississippi as required by laws, rules and regulations or, if allowed by statute, covenants to obtain such qualification prior to contract award.

ARTICLE 3 – BIDDER'S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

- A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

<u>Addendum No.</u>	<u>Addendum, Date</u>
<u>#1</u>	<u>9/13/2023</u>
<u>#2</u>	<u>9/15/2023</u>
<u>#3</u>	<u>9/20/2023</u>
<u>#4</u>	<u>9/21/2023</u>

- B. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
- C. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.
- D. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site, if any, and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.
- E. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings

identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder's safety precautions and programs.

- F. Bidder agrees, based on the information and observations referred to in the preceding paragraph, that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.
- G. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.
- H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents and confirms that the written resolution thereof by Engineer is acceptable to Bidder.
- I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work.
- J. The submission of this Bid constitutes an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, and that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.
- K. The submission of the Bid constitutes that applicable sales taxes are included in the stated Bid prices for the work, unless provision is made herein for the bidder to separately itemize the estimated amount of sales tax.

ARTICLE 4 – BIDDER'S CERTIFICATION

4.01 Bidder certifies that:

- A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;
- B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;
- C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and
- D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:
 - 1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process;
 - 2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;
 - 3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
 - 4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

ARTICLE 5 – BASIS OF BID

5.01 Cash Allowances: No Cash Allowances

- 5.02 Contingency Allowances: Bidder agrees that the following contingency efforts, products (materials and equipment) as further described in Sections 01 20 00, PRICE AND PAYMENT PROCEDURES, and 01 50 00, TEMPORARY FACILITIES AND CONTROLS, will be furnished and paid for on a cash allowance basis and that the amount shown is an estimated amount to be included in the Total Base Bid. Bidder further acknowledges that final payment will be based on actual costs as determined in conformance with the Bidding Documents and as authorized by Change Order. Bidder agrees that the following contingency allowances are for the sole use of the Owner to cover unanticipated costs and have been computed in accordance with Paragraph 13.02 of the General Conditions.

ITEM	DESCRIPTION	CONTINGENCY
1.	Work Change Directives	\$ 30,000
2.	Independent Testing Cash Allowance	\$ 10,000
Lump Sum for Contingency Allowances		\$ 40,000

- 5.03 Bidder acknowledges that (1) each Bid Unit Price includes an amount considered by Bidder to be adequate to cover Contractor's overhead and profit for each separately identified item, and (2) estimated quantities are not guaranteed, and are solely for the purpose of comparison of Bids, and final payment for all unit price Bid items will be based on actual quantities, determined as provided in the Contract Documents.
- 5.04 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

Base Bid Item No.	Bid Qty	Description (Bidder to write Bid Price in words)	Unit Price	Bid Price
1	1 LS	All Work as defined in the Contract Documents except those items listed separately below, for the lump sum of: <u>eight hundred sixty-three thousand six hundred eighteen dollars</u>	N/A	\$ <u>863,618</u>
2	500 LF	Concrete Crack Injection for clarifier and launder walls	<u>130</u>	<u>65,000</u>
3	500 SF	Concrete Surface Repair for clarifier and launder walls	<u>235</u>	<u>117,500</u>
4	1 LS	Contingency Allowance 1 for Work Change Directives (miscellaneous work on a change authorization basis) required during completion of the Project to be used solely at the discretion of the OWNER and ENGINEER, for the lump sum of: 30,000 Dollars	N/A	\$ <u>30,000</u>
5	1 LS	Contingency Allowance 2 for Independent Testing required during completion of the Project to be used solely at the discretion of the OWNER and ENGINEER, for the lump sum of: 10,000 Dollars	N/A	\$ <u>10,000</u>
Total Base Bid Price				\$ <u>1,086,118</u>

Total of Lump Sum and Unit Price Bids = Total Base Bid Price (Bidder to write price in figures and words)

\$ 1,086,118
one million eighty six thousand one hundred eighteen dollars

5.05 BID ALTERNATES

- A. The undersigned bidder offers to make, at the bid alternate prices (**Deductive** Bid Alternates) following, the changes in the work covered in the Total Base Bid Price that are specified in the bid alternates priced below:
- B. It is understood that:
 1. All bid alternate prices shall be filled in. The work detailed by the bid alternate(s) is an extension of the nature of the work for the Total Base Bid Price's project. This proposal requires that the undersigned Bidder propose on all work detailed by the Total Base Bid Price's project and the decrease in work as detailed by each and all of the bid alternates. Failure to comply with this requirement of submitting a price for each and all of the bid alternates may render the Bid non-responsive and may cause its rejection.
 2. The acceptance or rejection of any or all of these bid alternates is at the option of the Owner.

3. Acceptance or rejection of bid alternates will not necessarily be made on the basis of price alone.
4. The acceptance or rejection of one or more bid alternates will not affect the Total Base Bid Project bid, nor other conditions of this bid, nor the price of other accepted bid alternates.
5. Reference Document 00 21 00, Article 19 for Method of Award.
6. The undersigned has carefully examined the plans and other contractual documents and has coordinated the scopes between the Total Base Bid Documents and the Bid Alternate Documents. Through submittal of a bid, the undersigned agrees and understands that the documents have been prepared with the highest level of care in the effort to coordinate the scopes of the Total Base Bid Project documents and the Bid Alternate documents. The undersigned agrees and accepts the responsibilities to coordinate and construct all required interconnections and coordination facilities between the Total Base Bid Project and any of, any combination of, and/or a total combination of the Bid Alternates to develop complete and operational facilities that meet the regulatory requirements for the facilities and the requirements set forth by these contract documents.

Deductive Bid Alternates (Bidder to write price in words)	Price
Alternate A: Deduct for re-use of the existing clarifier mechanism walkway and bridge support. <u>one dollar</u>	\$ 1.00

ARTICLE 6 – TIME OF COMPLETION

- 6.01 Bidder agrees that the Work will be substantially complete within 510 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 540 calendar days after the date when the Contract Times commence to run.
- 6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 7 – ATTACHMENTS TO THIS BID

- 7.01 The following documents are submitted with and made a condition of this Bid:
 - A. Required Bid security in the form of a certified or bank check, or a Bid Bond, issued by a surety meeting the requirements of the General Conditions.
 - B. List of Project References;
 - C. Evidence of authority to do business in the state of the Project; or a written covenant to obtain such license within the time for acceptance of Bids;
 - D. Required Bidder Qualifications Statement (Section 00 45 13) with supporting data; and
 - E. Section 00 41 16 – List of Manufacturers
 - F. Section 00 41 49 – List of Proposed Subcontractors
 - G. Section 00 45 13 – Qualifications Statement

ARTICLE 8 – DEFINED TERMS

- 8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

COUNTERSIGNED 
ANTHONY CURRERA
MISSISSIPPI LICENSED AGENT #10341383

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond shall be Owner's sole and exclusive remedy upon default of Bidder.
2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.
3. This obligation shall be null and void if:
 - 3.1 Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or
 - 3.2 All Bids are rejected by Owner, or
 - 3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).
4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.
5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.
6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after the Bid due date.
7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.
8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.
9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.
10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.
11. The term "Bid" as used herein includes a Bid, offer, or proposal as applicable.

Western Surety Company

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That WESTERN SURETY COMPANY, a South Dakota corporation, is a duly organized and existing corporation having its principal office in the City of Sioux Falls, and State of South Dakota, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Alexander J Ellsworth, Anthony Currera, Charles F Cowand, NormaToups, Kathryn Moore, Individually

of Metairie, LA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind it thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the corporation and all the acts of said Attorney, pursuant to the authority hereby given, are hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the By-Law and Resolutions printed on the reverse hereof, duly adopted, as indicated, by the shareholders of the corporation.

In Witness Whereof, WESTERN SURETY COMPANY has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 18th day of August, 2023.

WESTERN SURETY COMPANY

Larry Kasten, Vice President

State of South Dakota }
County of Minnehaha } ss

On this 18th day of August, 2023, before me personally came Larry Kasten, to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of WESTERN SURETY COMPANY described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said corporation and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said corporation.

My commission expires

March 2, 2026

M. Bent, Notary Public

CERTIFICATE

I, L. Nelson, Assistant Secretary of WESTERN SURETY COMPANY do hereby certify that the Power of Attorney hereinabove set forth is still in force, and further certify that the By-Law and Resolutions of the corporation printed on the reverse hereof is still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said corporation this 29TH day of SEPTEMBER, 2023.

WESTERN SURETY COMPANY

L. Nelson, Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE SHAREHOLDERS OF WESTERN SURETY COMPANY

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the shareholders of the Company.

Section 7. All bonds, policies, undertakings, Powers of Attorney, or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, and Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or agents who shall have authority to issue bonds, policies, or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above Bylaw to execute power of attorneys on behalf of Western Surety Company.

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

“RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company.”

GOTTFRIED
CONSTRUCTION, LLC.

CORPORATE RESOLUTION

At a meeting of the Board of Directors of Gottfried Construction, LLC, held at its office at No. 6 Meyers Road, Covington, LA 70435 on September 28, 2023 pursuant to due notice at which a quorum of the board was present, on motion, duly seconded, the following resolution was unanimously adopted:

BE IT RESOLVED, that **David S. Gottfried** is hereby authorized to submit bids and execute agreements on behalf of Gottfried Construction, LLC for the project below.

Gautier Waste Water Treatment Plant Clarifier No. 2 Rehabilitation
Jackson County Utility Authority
JCUA Project No. 2023.074

This is to certify that the above is a true and correct copy of the resolution unanimously adopted, on motion, and duly seconded at the board of directors meeting of Gottfried Construction, LLC, a partnership organized under the laws of the State of Louisiana, held at its office, in the parish of St. Tammany on September 28, 2023 pursuant to due notice at which meeting a quorum of the Board was present; and that said resolution is duly entered upon the minute book of said partnership and is now in full force and effect.

This 28th day of September 2023.

RS 38:2225

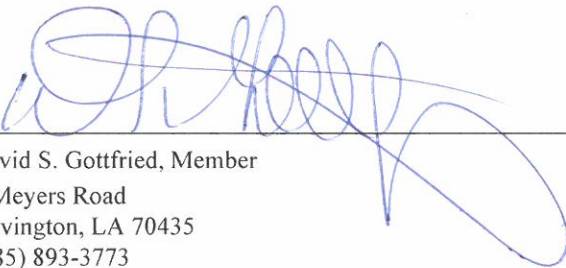

§2225. Preference in letting contracts for public work

A. If a nonresident contractor bidding on public work in the state of Louisiana is domiciled in a state that provides a percentage preference in favor of contractors domiciled in that state over Louisiana resident contractors for the same type of work, then every Louisiana resident contractor shall be granted the same preference over contractors domiciled in the other state favoring contractors domiciled therein whenever the nonresident contractor bids on public work in Louisiana.

B. Any local law, either by legislative act or otherwise, ordinance, or executive order enacted prior to the effective date of this Act, or enacted hereinafter in conflict with this Section, or granting any local contractor or subcontractor preference over other Louisiana resident contractors shall be contrary to the provision of this Section.

C. The Department of Transportation and Development and the office of facility planning and control within the division of administration shall keep on file a list of all states with a bid preference.

D. The provisions and requirements of this Section shall not be waived by any public entity.
Acts 1983, No. 43, §1, eff. June 17, 1983. Acts 1984, No. 894, §2; Acts 2014, No. 759, §1.

9. BONDING INFORMATION

Bonding Company: Western Surety

Address: 151 N. Franklin St., 17th Floor
Chicago, IL 60606

Bonding Agent: Ellsworth Corporation

Address: 3636 South I-10 Service Rd.
Suite 0100
Metairie, LA 70001

Contact Name: Anthony Currera

Phone: 504-455-4545

Aggregate Bonding Capacity: \$10,000,000 or more

Available Bonding Capacity as of date of this submittal: \$10,000,000 or more

10. FINANCIAL INFORMATION

Financial Institution: JP Morgan Chase

Address: 201 St. Charles Ave, Floor 28
New Orleans, LA 70170

Account Manager: Leonard Washington

Phone: 504-623-7675

Credit available: \$ \$1,000,000 or more

11. CONSTRUCTION EXPERIENCE:

Current Experience:

List on **Schedule A** all uncompleted projects currently under contract (If Joint Venture list each participant's projects separately).

Previous Experience:

List on **Schedule B** all projects completed within the last 5 Years (If Joint Venture list each participant's projects separately).

Has firm listed in Section 1 ever failed to complete a construction contract awarded to it?

☐ YES ☒ NO

If YES, attach as an Attachment details including Project Owner's contact information.

Has any Corporate Officer, Partner, Joint Venture participant or Proprietor ever failed to complete a construction contract awarded to them in their name or when acting as a principal of another entity?

☐ YES ☒ NO

If YES, attach as an Attachment details including Project Owner's contact information.

Are there any judgments, claims, disputes or litigation pending or outstanding involving the firm listed in Section 1 or any of its officers (or any of its partners if a partnership or any of the individual entities if a joint venture)?

☐ YES ☒ NO

If YES, attach as an Attachment details including Project Owner's contact information.

12. SAFETY PROGRAM:

Name of Contractor's Safety Officer: Damian Brockhoeft

Include the following as attachments:

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) OSHA No. 300- Log & Summary of Occupational Injuries & Illnesses for the past 5 years.

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) list of all OSHA Citations & Notifications of Penalty (monetary or other) received within the last 5 years (indicate disposition as applicable) - IF NONE SO STATE. **NONE**

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) list of all safety citations or violations under any state all received within the last 5 years (indicate disposition as applicable) - IF NONE SO STATE. **NONE**

Provide the following for the firm listed in Section V (and for each proposed Subcontractor furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) the following (attach additional sheets as necessary): *** See Attached**

Workers' compensation Experience Modification Rate (EMR) for the last 5 years:

YEAR	<u>2023</u>	EMR	<u>.92</u>
YEAR	<u>2022</u>	EMR	<u>.92</u>
YEAR	<u>2021</u>	EMR	<u>.91</u>
YEAR	<u>2020</u>	EMR	<u>.89</u>
YEAR	<u>2019</u>	EMR	<u>1.50</u>

Total Recordable Frequency Rate (TRFR) for the last 5 years:

YEAR	<u>2023</u>	TRFR	<u>0</u>
YEAR	<u>2022</u>	TRFR	<u>0</u>
YEAR	<u>2021</u>	TRFR	<u>0</u>
YEAR	<u>2020</u>	TRFR	<u>0</u>
YEAR	<u>2019</u>	TRFR	<u>0</u>

Total number of man-hours worked for the last 5 Years:

YEAR	<u>2023</u>	TOTAL NUMBER OF MAN-HOURS	<u>27,385</u>
YEAR	<u>2022</u>	TOTAL NUMBER OF MAN-HOURS	<u>48,658</u>
YEAR	<u>2021</u>	TOTAL NUMBER OF MAN-HOURS	<u>46,855</u>
YEAR	<u>2020</u>	TOTAL NUMBER OF MAN-HOURS	<u>42,995</u>
YEAR	<u>2019</u>	TOTAL NUMBER OF MAN-HOURS	<u>46,956</u>

Provide Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) Days Away From Work, Days of Restricted Work Activity or Job Transfer (DART) incidence rate for the particular industry or type of Work to be performed by Contractor and each of Contractor's proposed Subcontractors and Suppliers) for the last 5 years:

YEAR	<u>2023</u>	DART	<u>0</u>
YEAR	<u>2022</u>	DART	<u>0</u>
YEAR	<u>2021</u>	DART	<u>0</u>
YEAR	<u>2020</u>	DART	<u>0</u>
YEAR	<u>2019</u>	DART	<u>0</u>

13. EQUIPMENT:

MAJOR EQUIPMENT:

List on **Schedule C** all pieces of major equipment available for use on Owner's Project.

I HEREBY CERTIFY THAT THE INFORMATION SUBMITTED HERewith, INCLUDING ANY ATTACHMENTS, IS TRUE TO THE BEST OF MY KNOWLEDGE AND BELIEF.

NAME OF ORGANIZATION: Gottfried Construction, LLC

BY: David Gottfried

TITLE: Member

DATED: 9/29/23

NOTARY ATTEST:

SUBSCRIBED AND SWORN TO BEFORE ME

THIS 29th DAY OF September, 2023

Sherry Powell
NOTARY PUBLIC - STATE OF Louisiana

MY COMMISSION EXPIRES: at death

REQUIRED ATTACHMENTS

1. Schedule A (Current Experience).
2. Schedule B (Previous Experience).
3. Schedule C (Major Equipment).
4. Evidence of authority for individuals listed in Section 7 to bind organization to an agreement.
5. Resumes of officers and key individuals (including Safety Officer) of firm named in Section 1.
6. Required safety program submittals listed in Section 12.

QUALITY CONTROL AND SAFETY PLAN

The following is parts of actual quality control plans we have used in the past.

In this plan, we discuss quality issues that are dealt with on various types of construction projects.

In our plans, we discuss the following:

1. Meetings

The following is an agenda for our Monthly Quality Control Meetings we hold at the jobsite

**QC Meeting Agenda
of
Quality Control Meeting for:
(Insert Name of Project Here)
Solicitation Number: _____
Gottfried's Job # _____**

Date: _____ **Time:** _____

Notice

To attendees and minutes recipients:

If any of the following items are incomplete or incorrect in any way, please notify Gottfried in writing. Failure to advise of such corrections by or before the next meeting constitutes acceptance of all information contained herein as it is represented.

The items discussed in this meeting included:

1. Schedule
 2. Quality Control / Safety
 3. RFI's
 4. Submittals
 5. Change Orders
 6. Open Discussion

The next meeting will be _____

Schedule

- Is the project on or ahead of schedule?
- Are the current activities being worked on properly staffed in accordance with the contractor or ROICC's schedule?

- If not on schedule, why not?
- What is the status of float on the activities in the two-week look ahead schedule? Review any activities that have negative float and explain what Gottfried plans to do to regain schedule.

Quality Control/Safety

- Address the items that are coming up on the two-week look ahead.
- Address the QC efforts on the activities currently being performed and any final acceptance testing to be completed.
- Is there any non-conforming work? If so, what is the status and what steps are being taken to resolve the issues.
- Address proactive steps being taken on the activities being worked in accordance with the project Accident Prevention/Safety Plan and address the activity hazard analyses for the construction activities coming up on the two- week look ahead schedule.
- Government to discuss any recurring safety problems that need Contractor Management attention.

RFIs

- Review the RFIs that were turned in last week, RFIs received by Gottfried, from the ROICC, and RFIs turned in but not responded to by the ROICC.
- Is the turn around time sufficient and are any RFIs still under analysis, which may have an adverse impact on current, and/or future construction activities in the two-week look ahead schedule?

Submittals

- Review the submittals that were turned in last week, submittals received by Gottfried from the ROICC, and submittals turned in but not responded to by the ROICC.
- Is the turn around time sufficient and are any submittals still under review, which may have an adverse impact on current, and/or future construction activities in the two-week look ahead schedule?
- Do any submittals need to be expedited by the ROICC?
- Does the schedule make provisions for all key long lead items?

Change Orders

- Are there any outstanding change orders and what is the status of them?
- Will any RFP's be issued in the next week?
- Is the turn around time for Contractor to Government and Government to Contractor sufficient?
- Are any negotiations scheduled and do any need to be scheduled?

Open Discussion

End of the Meeting

2. Inspections

There are three phases of control to our inspection system.

They are:

- 1.) Preparatory Phase
- 2.) Initial Phase
- 3.) Follow-up Phase.

PROCEDURES TO BE FOLLOWED IN PREPARATORY, INITIAL AND FOLLOW UP PHASES OF CONTROL

INSPECTION SYSTEM

The QC Manager shall perform the three phases of control to ensure the work complies with Contract documents. The Three Phases of Control shall adequately cover both on site and off-site work and shall include the following for each definable feature of work: A definable feature of work is a task which is separate and distinct from other tasks and requires separate control requirements.

The following is a brief but thorough description of the three phases of control. The QC Manager shall notify the Contracting Officer at least two weeks prior to the start of the preparatory and initial phases for off-site work.

PREPARATORY PHASE

The QC Manager shall notify the Contracting Officer at least 2 days in advance of each preparatory phase. Conduct the preparatory phase with the QC Manager/Superintendent, the project foremen, or the subcontractor's foreman responsible for the definable feature of work.

The QC Manager shall document the results of the preparatory phase actions on the daily Contractor Quality

Control Report.

The following shall be performed prior to beginning work on each definable feature of work:

1. Review each paragraph of the applicable specification section
2. Review the contract drawings
3. Verify that the appropriate shop drawings and submittal data for materials and equipment have been submitted and approved. Verify receipt of approved factory test results, when required.
4. Review the Test Plan and ensure that the provisions have been made to provide the required QC testing.
5. Examine the work area to ensure that the required preliminary work has been completed.
6. Examine the required materials, equipment, and sample work to ensure that they are on hand and conform to the approved shop drawings and submittal data.
7. Review the safety plan and appropriate activity hazard analysis to ensure that applicable safety requirements are met, and that required Material Safety Data Sheets (MSDS) are submitted and on hand.
8. Discuss construction methods.

INITIAL PHASE

The QC Manager shall notify the Contracting Officer as least 2 days in advance of each initial phase. When construction crews are ready to start work on a definable feature of work, conduct the initial phase with the QC Manager/Superintendent, the project foremen, or the subcontractor's foreman responsible for the definable feature of work.

The QC Manager shall observe the initial segment of the definable feature of work to ensure that the work complies with the Contract documents. The QC Manager shall document the results of the initial phase actions. on the daily Contractor Quality Control Report.

Repeat the initial phase for each new crew to work on site, or when acceptable levels of specified quality are not being met.

The following shall be performed prior to beginning work on each definable feature of work:

1. Establish the quality of workmanship required.
2. Resolve conflicts.
3. Review the Safety plan and the appropriate activity hazard analysis to ensure that applicable safety requirements are met.
4. Ensure that testing is performed by the approved laboratory.

FOLLOW UP PHASE

The QC Manager shall perform the follow up phase for on-going work daily, or more frequently as necessary until the completion of each definable feature of work.

The QC Manager shall document the results of the initial phase actions on the daily Contractor Quality Control Report.

During the follow up phase, the following shall be performed.

1. Ensure the work is in compliance with the Contract requirements.
2. Maintain the quality of workmanship required.
3. Ensure testing is performed by the approved laboratory.
4. Ensure re-work items are being corrected

3. Submittal reviews

Procedures for reviewing, approving, and managing submittals. Provide the name of the person authorized to review and certify submittals prior to approval.

The QC organization shall be responsible for reviewing and certifying that submittal shall be in compliance with the contract requirements. The submittal assistant shall begin by preparing the submittal register as listed in the specifications. This lists all the submittals required. The submittal assistant will then review subcontracts and purchase orders to determine who will provide the required information. Items prepared in-house by Gottfried will also be noted.

The proposed construction schedule and contract requirements will be reviewed to determine when the items need to be submitted so that submittal processing will not delay work on site. This date will be entered on the submittal register.

The approving authority is also listed on the submittal register in column "d". The QC Manager is the approving authority unless otherwise specifically noted under column "d". "G" indicates that the Contracting Officer is the approving authority.

All submittal data is to be submitted to Gottfried's home office. The submittal assistant shall log the date the data was received on the submittal log. He shall then review each submittal, check and coordinate each with requirements of the work and contract documents.

He shall review submittals for conformance with project design concepts and compliance with the contract documents.

He shall ensure that the submittal material is clearly legible.

He shall prepare eight copies for approval and keep the original in the office file marked "Pre-Approval Copy". This copy will be kept in case submittal is accidentally lost or destroyed.

Once the review process is complete, the submittal assistant shall complete a cover sheet for the submittal, listing the name of project and location, the contract number, the specification number and title, the items submitted, the general contractor's name, address and telephone number, the subcontractor's name, address and telephone number, and a certification stamp. The submittal is then forwarded to the Government for its review.

The submittal assistant shall sign the certifying statement or approval statement. His signature shall be in original ink. Stamped signatures are not acceptable.

The submittal assistant shall log on the submittal register the actions noted, date of action, and the date forwarded to the government.

REVIEW PERIOD

The submittal assistant shall provide a review period 15 working days for submittals for QC Manager approval and 20 working days for submittals for Contracting Officer approval. The period of review begins when the Government receives the submittal. The period of review for each re-submittal is the same as for the initial submittal. For submittals requiring review by the Fire Protection Engineer, allow a review period of 30 working days for return of the submittal.

VARIATIONS

Variations from contract requirements require Government approval. If a variation is requested, the submittal assistant shall submit a written request to the Contracting Officer with documentation of the nature and features of the variation and why the variation is desirable and beneficial to the Government. The variation must be compatible with other elements of the work. In addition to the normal submittal review period, a period of 10 working days will be allowed for consideration by the Government.

SUBMITTALS RETURNED FROM THE GOVERNMENT

Once submittals are returned to the home office, the submittal is logged on the submittal register, the date received, the action taken, and date of action,

Submittals will be returned with one of the following notations:

- a. Submittal marked "not reviewed" will indicate the submittal has been previously reviewed and approved, is not required as a submittal, does not have evidence of being reviewed and approved by the Contractor, or is not complete. A submittal marked "not reviewed" will be returned with an explanation of the reason it is not reviewed. Returned submittals deemed to lack review by the Contractor to be incomplete shall be resubmitted with appropriate action, coordination, or change.
- b. Submittals marked "approved" "approved as submitted" authorize the Contractor to proceed with the work covered.
- c. Submittals marked "approved as noted" or "approved except as noted; resubmission not required" authorize the Contractor to proceed with the work as noted provided the Contractor takes no exception to the notations.
- d. Submittals marked "revise and resubmit" or "disapproved" indicate the submittal is incomplete or does not comply with the design concept or the requirements of the Contract documents and shall be resubmitted with appropriate changes. No work shall proceed for this item until the re-submittal is approved.

The submittal assistant shall review the returned submittal and comments. If the submittal is marked "approved", "Approved as submitted", "approved as noted" or "approved except as noted; resubmission not required", the submittal assistant shall return two copies of the submittal to the subcontractor or supplier, one copy to the jobsite, and one copy to the home office files. Any remarks required and the date returned will be posted on the submittal register.

If the submittal is marked "revise and resubmit" or "disapproved", the submittal assistant shall return copies to the subcontractor or supplier for re-submittal. Unless otherwise noted, the sub or supplier will have 10 days to resubmit. Once resubmitted, the approval process starts over again. A new line will be set up on the submittal register for the resubmitted item.

The submittal register shall be updated as submittal actions occur. Updated copies will be forwarded to the jobsite. Copies must be kept at the jobsite until final acceptance of all work by the Contracting Officer.

4. Correction of Non-Compliant Work

PROCEDURES TO COMPLETE RE-WORK ITEMS

If any portion of the work is found not in conformance with the contract documents, a check off list of work shall be maintained. The QC Manager shall state specifically what is non-complying, the date the faulty work was originally discovered, and the date the work was corrected. This will be reported on the "REWORK ITEMS LIST".

Work corrected on the day the deficiency is discovered, will not be listed on the report.

No work shall be added to or built upon without the Contracting Officer's approval.

Copies of the REWORK ITEMS LIST shall be attached to the last daily Contractor Quality Control Report of each month.

A copy of the REWORK ITEMS LIST is attached.

Tests and inspections will be repeated after each correction on non-conforming material and workmanship until the tests and inspections indicate the materials, equipment and workmanship conform to the Contract Documents.

5. Non-Reoccurrence

During the Follow up phase, the QC Manager shall verify re-work items are being corrected, and not being repeated.

6. Reporting of Quality Problems to Government Officials

Information for the Contracting Officer:

The following forms must be delivered to the Contracting Officer:

1. Combined Contractor Production Report / Contractor Quality Control Report:
Original and one copy by _____ (time needs to be determined for this project) the next working day after each day that work is performed.
2. Test Plan and Log:
One copy, at the end of each month
3. Monthly Summary Report of Field Test:
Original attached to Contractor Quality Control Report at the end of each month.
4. QC Meeting Minutes:
One copy, within two calendar days of the meeting.
5. Rework Items list:
One copy, by the last working day of the month
6. Test Reports:
Submitted within 2 working days and attached to Contractors Production Report.

4B Procedures for Contract Close-out

PROCEDURES FOR COMPLETION INSPECTIONS

PUNCH-OUT INSPECTION:

Near the completion of all work or any increment thereof, the QC Manager shall conduct an inspection of the work and develop a "Punch List" of items which do not conform to the approved drawings and specifications. Include in the punch list any remaining items on the "Rework Items list" which were not corrected prior to the Punch-Out Inspection. The punch list shall include the estimated date by which the deficiencies will be corrected. A copy of the punch list shall be provided to the Contracting Officer. The QC Manager or staff shall make follow-up inspections to make certain all deficiencies have been corrected. Once this is accomplished the Contractor shall notify the Government that the facility is ready for the Government "Pre-Final Inspection".

PRE-FINAL INSPECTION:

The Government will perform this inspection to verify that the facility is complete and ready to be occupied. A Government "Pre-Final Punch List" may be developed as a result of this inspection. The QC Manager shall ensure that all items on this list are corrected prior to notifying the government that a "Final" inspection with the customer can be scheduled. Any items noted on the "Pre-Final" inspection shall be corrected in a timely manner and shall be accomplished within the time slated for completion of the entire work, or any particular increment thereof if the project is divided into increments by separate completion dates.

FINAL ACCEPTANCE INSPECTION:

The QC Manager, QC Specialists, the superintendent or other primary contractor management personnel, and the Contracting Officer's representative will be in attendance at this inspection. Additional Government personnel may be in attendance. The final acceptance inspection will be formally scheduled by the Contracting Officer based upon results of the "Pre-Final" inspection. Notice shall be given to the Contracting Officer at least 14 days prior to the final inspection stating that all specific items previously identified to the Contractor, as being unacceptable, along with all the remaining work performed under the contract, will be complete and acceptable by the date scheduled for the final acceptance inspection. Failure of the Contractor to have all contract work acceptably complete for this inspection will be cause for the Contracting Officer to bill the Contractor for the Government's additional inspection cost in accordance with the Contract Clause entitled "Inspection of Construction"

All O & M Manuals and closeout documentation must be submitted before Final Acceptance Inspection.

AS-BUILTS

The QC Manager is required to ensure the as-built drawings are kept current on a daily basis and marked to show deviations which have been made from the Contract Drawings. The QC Manager is to ensure that each deviation has been identified with the appropriate modification documentation. The QC Manager shall initial each deviation and each revision

Upon completion of work, the QC Manager shall furnish a certificate attesting to the accuracy of the as-built drawings prior to submission to the Contracting Officer.

GENERAL SAFETY PROGRAM

The members and management of Gottfried Contracting LLC are committed to providing a safe and healthful work environment for all our employees and others that may work, visit, or enter our facilities. Therefore, Gottfried issues the following policy statement:

- It is the policy of Gottfried Contracting that every employee is entitled to work under the safest possible conditions for the construction industry. To this end, every reasonable effort will be made in the interest of accident prevention, fire protection, and health preservation.
- A comprehensive safety and health program shall be maintained with the objective of reducing the number of accidents and injuries to an absolute minimum; zero recordables and zero lost time. To be successful such a program must embody the proper attitudes towards accident prevention on the part of both the supervisors and employees. It also requires cooperation in all safety and health matters, not only between supervisor and employee, but also between employee and his or her fellow worker. It is only through cooperation that such programs can work effectively.
- On each project, the site safety and health officer (SSHO) will be responsible for implementing the safety program. All employees and subcontractors shall adhere to the rules, regulations, and other provisions of our safety program.
- Gottfried adheres to OSHA Standards and the USACOE EM 385-1-1 (Safety Manual)

DISCUSS THE STEPS YOU TOOK TO PROMOTE SAFETY DURING CONSTRUCTION DURING THE PAST THREE YEARS:

- **Damian Brockhoeft, Company Safety Officer**, has been trained with the OSHA 30-hour Safety Class. Damian has the authority and responsibility to train all of Gottfried's Site Safety and Health
- Toolbox Safety meetings are held at least weekly on the jobsite with all workmen required to attend.

SITE SPECIFIC ACCIDENT PREVENTION AND SAFETY PLAN

Gottfried develops a complete project specific Accident Prevention Plan in accordance with OSHA EM-385-1.1 This plan varies in size depending on the scope of the work but contains over 80 pages of information. Due to page limitations set with this RFP, we will abbreviate its contents here below.

1. Signature Sheet – signed by Plan Preparer, Gottfried Management Personnel, Plan concurrence by Project Manager and Site Safety and Health Officer.
2. Background Information including contractor name, contract number, Project Name, Project Description, contractor EMR rate, and list of definable features of work requiring Activity Hazard Analysis.
3. Gottfried's Statement of Safety and Health Policies
4. Organizational Chart showing lines of Authority with Key Personnel resumes, and proof of courses taken by each.
5. List of Subcontractors and Suppliers involved in the project. Both Gottfried and its sub-contractors share the responsibility for the safety and health of their employees. All subcontractors are responsible for complying with the standards established in this Accident Prevention Plan and EM 385-1-1.
6. Training – This section describes general training, safety meetings, site

specific training, hazard communication, first aid and CPR, and other additional training, certification, and licenses needed to work on site.

7. Safety and Health Inspections – The Safety Officer will conduct daily safety inspections of work processes, site conditions, and equipment conditions. He will use the form that section to document the deficiencies found in his inspection.
8. Safety and Health Expectations, Incentive Programs, and Compliance – At Gottfried, safety is a core value. Gottfried, as well as all project personnel, will establish a goal of zero accidents for the project and hold all parties involved accountable for that goal.
9. Accident Reporting
10. Medical Support
11. Personnel Protective Equipment
12. Plans required by the Safety Manual
13. Activity Hazard Analysis.

TRAINING:

THE FOLLOWING INFORMATION COMES FROM OUR SAFETY PLAN:

This section describes general training, safety meetings, site specific training, hazard communication, first aid and CPR, and other additional training, certification, and licenses needed to work on site.

General Training

The Safety Officer is responsible for informing all site personnel and all visitors of the contents of this Accident Prevention Plan and ensuring that each person signs the Accident Prevention Plan and Training Acknowledgement Forms prior to working on site. Documentation of certification of training requirements will be reviewed by the Safety Officer and filed on site as required.

Visitor Training

Site access personnel making deliveries, public or government officials, and visitors, will be limited to support areas only. They will not be required to comply with training requirements. Authorization for limited site access will be determined on a case-by-case basis by the Safety Officer in consultation with the Government, Project Manager, or Gottfried representative.

Safety Meetings:

Employees shall be provided continuing safety and health training as appropriate to enable them to perform their work in a safe manner.

Toolbox Safety Meeting:

The Safety Officer shall conduct weekly toolbox safety meetings. The topics discussed shall include safety and health considerations for the week's activities, pertinent aspects of AHAs, necessary PPE, problems encountered, and new operations. Attendance shall be documented on the Safety Meeting Log and maintained with the project files and submitted to the Navy if requested.

Supervisor Safety Meetings:

A supervisor safety meeting shall be held each month. This meeting will be held by the Project Manager, Safety Officer, Project Superintendent, foremen, and other appropriate persons. The topics to be covered are as follows:

- Past Activities
- Plans for new or changed operations
- Review of pertinent aspects of appropriate AHAs.
- Establishment of safe working procedures for anticipated hazards.
- Pertinent safety and health training and motivation.
- Worker input and contributions.

Site Specific Training:

Both Gottfried and subcontractor personnel are required to attend a safety orientation meeting prior to working on site. The safety orientation training will be documented on the Accident Prevention Plan Acknowledgement. The indoctrination training will include the following topics.

- Purpose of the Accident Prevention Plan and review of pertinent sections including emergency response procedures as outlined in the Emergency Response Plan and Contingency Procedures (included in Section 12)
- Review of applicable AHAs.
- Names of Personnel responsible for site safety.
- The provisions for medical care and facilities and the names of CPR and first aid trained personnel assigned to the project.
- Weekly safety and preparatory meeting procedures.
- Safety and health hazards in the work area and the means to control/eliminate those hazards.
- Responsibilities for accident prevention and maintaining safe and healthful work environments.
- Procedures for reporting and correcting unsafe conditions or practices.
- Responsibilities for reporting all accidents and illnesses.
- PPE use and care.
- Location of safety equipment (such as fire extinguishers, first aid kits, eyewash stations).
- Standard operating procedures, safety rules, and safe work practices for the project.
- Work zones and site control measures
- Hazard Communication Program
- Confined Space Entry procedures (when applicable)
- Hot work procedures (when applicable)
- Lockout/Tagout Procedures
- Fall Protection
- Fire Prevention
- Housekeeping

The content of the training will be derived from information contained within this Accident Prevention Plan.

Mandatory Training and Certifications:

In addition to the training, certification, and licensing previously detailed, the following shall also be required:

- The Safety Officer will have completed the 30-hour OSHA Construction Safety class within the last three years. Certifications or training will be provided to Gottfried as individuals are identified, prior to mobilization for specific tasks.
- All personnel operating motor vehicles shall hold a valid operator's license from the state in which they reside. License renewal is subject to individual state laws.
- All crane and derrick operators shall have a certificate designating them as a qualified operator for the type and capacity of crane or derrick they are operating. Qualification is to be renewed every three years. Proof of qualifications shall be submitted to Gottfried prior to conducting operations.
- Any employee operating a powder-actuated tool shall be qualified as an operator of that tool as specified by the manufacturer. Recertification, if any, shall be obtained as specified by the manufacturer.
- Confined space entry, attendant, and supervisory personnel shall be trained as previously specified. Confined space rescue personnel shall be trained and certified as specified in 29 CFR 1910.146 and shall practice rescues (from similar types of confined spaces) on an annual basis. Proof of qualification shall be submitted to Gottfried prior to conducting operations.
- The certification and recertification requirements for first aid and CPR are applicable. First Aid and CPR training/certification must be made by a reputable provider, such as the American Red Cross or American Heart Association. Proof of qualification shall be maintained on site.
- Personnel inspecting cranes shall have a certificate designating them as a competent person.
- Personnel operating arc-welding equipment shall have a certificate designating them as a qualified operator.
- Personnel operating gas welding and cutting equipment shall have a certificate designating them as a qualified operator.
- Personnel may only use portable fire extinguishers to extinguish small fires, if the employee has been trained and the employee is confident that the small fire can be safely extinguished.

**GOTTFRIED SAFETY AND HEALTH PLAN
ACKNOWLEDGEMENT FORM**

I have been informed of, and will abide by the procedures set forth in this health and safety accident prevention plan for Gottfried Construction LLC. By signing the acknowledgement form, I certify receipt of accident prevention plan training and hazard communication training required for safe performance of my job at (JOB NAME GOES HERE).

POSITION OBJECTIVE: To secure challenging and rewarding employment utilizing the valuable combination of my extensive experience, cost-effective, time efficient supervisory skills, and proven capabilities.

SUMMARY:

Acquired thirty (30) years progressive results oriented experience in Project Managing and Quality Control Managing. Responsible for site work i.e. concrete, steel erectors, metal fabricators, plumbers, electricians, HVAC, painters, carpenters and roofers. Have extensive background in mechanical, electrical and analytical controls networks. I have proven leadership in training and supervising personnel and coordinating their efforts to perform safely and insure quality craftsmanship. It is my firm belief that a project can maintain a schedule and budget and still work safe and perform quality craftsmanship. Possess excellent interpersonal and communication skills and interact well with engineering, construction and client teams at all levels.

EDUCATION:

National Environmental Balancing Bureau (NEBB). Coursework for Testing, Adjusting and Balancing of Environmental Systems- Graduated 1989

Louisiana State University, Baton Rouge, La.-Bachelor of Science Degree in Construction Management- Graduated 1980.

Jesuit High School, New Orleans, La.-Graduated 1975.

Licenses and Certifications.

Professional Engineer in Louisiana- Mechanical- Lic.# 29784

Certified Professional Constructor-AIC- Lic.# 1610

Certified by NEBB for Testing, Adjusting and Balancing of Environmental Systems

Construction Quality Management For Contractors Certification- U.S. Army Corps of Engineers

30 hour Occupational Safety and Health Training Course in Construction Safety & Health

Qualifying person for Louisiana State Contractor's License # 41751

-Building Construction, Heavy Construction, Municipal and Public Works Construction, Mechanical Work (Statewide), Electrical Work (Statewide), Plumbing (Statewide)

Employment:

November 2001 TO Present

Gottfried Construction, LLC
2025 Philip Dr.
Covington, La.
Project Manager
Member

DUTIES: Responsible for organizing multi million dollar projects, ordering materials, manpower, schedules plans & specifications. Set up and maintain Web-CM program for daily reports activity. Insure contractor safety and Quality Control programs are kept at a high standard of professionalism. Maintain RFI, PC, Rework, Test Plan Logs, Quality Control reports and keep on schedule. Follow up on all materials for Made in America status. Inspect job site daily and interface with ROICC representatives and Engineer Tech inspectors. Maintain NAVFAC, Unified Facilities Guide Specifications as well as USACE specs. Insure all work is performed in a safe and professional manner in accordance with USACE EM 385-1-1 safety manual.

Experience: Replace 64" diameter Fairbanks-Morse drainage pumps for the Lake Borgne Levee District, Saint Bernard Parish, Louisiana. The project included the removal of 6 ea. mechanically driven pumps/engines and replacing them with hydraulically driven pumps. Work also included the modification of the fuel, cooling, exhaust and electrical systems of the engines. The inlet canals and intake basins of the 6 ea. pumps were dredged and cleaned as well. The project was completed ahead of schedule and had no safety issues.

Repairs to 54" diameter Fairbanks-Morse drainage pump for New Orleans Sewage & Water Board, Orleans Parish, Louisiana. Work included the removal and reinstallation of the pump shaft, impeller and coupling. Assembly was sent to machine shop and repaired. Work also included repairs to the rakes and the dredging of the intake structure and canal. The project was completed ahead of schedule and had no safety issues.

Katrina Repairs for Mississippi Air National Guard in Gulfport, Mississippi. Work included the renovation of 60 buildings that were damaged and/or flooded as a result of the storm. Relevant work included the replacement of 9 drainage pumps at 3 fuel sites. Because of containment walls around fuel sites all rain water must be pumped to outside. There was much earth work that we did as a result of the tidal surge scowling the military base. The project was completed ahead of schedule and had no safety issues.

Install Jet Fuel Pipeline, Pumps, Fuel Dock and Access Road for US Navy at Alvin Calendar Field in Belle Chasse, Louisiana. The project included about 12,000 lf. of 14" diameter carbon steel pipe from the Harvey Canal to the fuel farm on base. We built a fuel dock on the canal for the barges to dock and unload. The dock area was also extensively dredged to achieve the proper water depth for the barge and tugs. On the dock there were several large booster pumps that pushed the fuel to the fuel farm. Part of the pipeline work included a 1500 lf. boring under the runway through an 18' diameter casing. A 2 mile long access road was constructed through the woods from the canal to the runway for fuel and maintenance personnel. The project was completed ahead of schedule and had no safety issues.

Install Aircraft Rinse Facility for US Air Force at Keesler AFB in Biloxi, Mississippi. The project included the construction of a new taxi runway with 200 water jet nozzles embedded in the concrete. As the jet airplanes crossed the nozzles, massive pumps would turn on to spray the bottom of the airplane. As the water fell back to the ground large drainage pumps would pump the water away from the runway to a nearby canal. The project was completed ahead of schedule and had no safety issues.

Subj: LETTER OF APPRECIATION FOR SUPPORT AND SERVICES PROVIDED
BY MR. BEN KELLER AND GOTFRIED CONSTRUCTION

1. I would like to extend my extreme thanks to Mr. Ben Keller and his team for providing us with outstanding service and professional leadership during the period of construction on Building 414 at NAS, JRB New Orleans.
2. During this period, Mr. Keller was a diligent and thoughtful manager. He consistently included the Marine leadership in all phases of the construction and ensured that our desires and goals were included and incorporated into the project. Whenever there were conflicts or changes that required incorporation due to either our requests or those of the base facilities personnel, we were always notified and allowed to provide input.
3. His professionalism was evident throughout the project and he strived diligently to keep the project on timeline despite a devastating hurricane and budgetary delays associated with the contract.
4. Mr. Keller's dedication was evident in the pre-acceptance inspection. Numerous items were noted by the Marine staff which was not included in the original contract. Through negotiations with the base contract and facilities personnel, Mr. Keller was able to repair or replace all the items that were on our list.
5. Mr. Keller's dedication, professionalism and willingness to go the extra mile for his customers reflected great credit upon himself and his team and were greatly appreciated by all the Marines of VMR Det Belle Chasse. Semper Fidelis and thank you for your service.
