RE: 50-00144993 Three (3) Year Contract for Laboratory Analytical Services for the Jefferson Parish Department of Environmental Affairs

Dear Jefferson Parish,

On behalf of Pace, we would like to thank you for the opportunity to respond to this bid.

Pace is a full-service sampling and analytical testing firm operating since 1978 with a network of over 50 environmental laboratories, 5 specialty service laboratories and 43 service center locations with over 2,800 employees across the United States and Puerto Rico. Pace is a privately held, profitable and growing company that is headquartered at 2665 Long Lake Road, Roseville, MN 55113.

The key to our success is our commitment to building a strong foundation, and our commitment to quality, consistency and continuous improvement.

We have carefully reviewed all documents provided in this RFP and the quoted prices have been carefully checked and are submitted as correct and final. We also certify that we are not on any debarment list maintained by any federal, state or local government authority nor prevented from performing work for Jefferson Parish by virtue of any governmental order, proceeding or otherwise. We will comply with the general conditions outlined in the bid. We understand that all information contained in this RFP is considered confidential.

Pace is a current approved/registered vendor for Jefferson Parish and understands this contract is awarded on an as needed basis not on minimum guaranteed quantities unless otherwise stated.

Pace Analytical will perform all work according to standard practices for the project. Pricing provided in this submittal is inclusive of all freight.

All parameters will be performed using EPA approved methods that achieve the required MQL and which are currently listed in 40 CFR Part 136. All parameters will be completed on a standard 10-15 day

turnaround time. If a RUSH turnaround time is needed; a 5 business day turnaround time will incur an upcharge of \$50 as outlined in the pricing pages. Upon delivery of analytical report, all QA/QC data will be submitted.

Laboratory Drop Off/Pick Up Details:

Samples can be dropped off at the following address Monday thru Friday; 8am to 5pm, and Saturday 8am to 12pm.

Samples can be arranged for courier pick up but need to be scheduled in advance. Courier pick up can be scheduled at any time between Monday thru Friday from the hours of 8am to 5pm at Pace's convenience.

Please contact Karen Brown (Karen.Brown@pacelabs.com) to schedule a courier pick up

1000 Riverbend Blvd.

Suite F

St. Rose, LA 70087

Special Provisions:

When requesting TCLP testing for SVOC, herbicides, pesticides, and metals a TCLP extraction fee of \$42 will apply. No provision was made to include this price in the pricing section of the RFP. Please also note when requesting TCLP VOC a zero-headspace charge of \$42 will apply and is included in the pricing section of this RFP.

The pricing portion of this bid lists our individual parameters for our semi-volatile screen; please note when requesting acid or base semi-volatiles it will be one price for all acid or base semi-volatiles, not per individual parameters.

Enterococci analysis has an 8-hour holding time. Due to this we cannot accept samples on Friday unless approved in advance. There will be a 50% upcharge for samples accepted on Fridays. In order to make sure there is enough time to transport

the samples to and from the lab within holding time, sampling must be coordinated with Pace.

Subcontract Lab:

Alpha Analytical is now part of the Pace laboratory network and will be reporting the fingerprint analysis. Fingerprint analysis testing is not a LELAP certification test, nor does it require any state certification. Their lab certification is attached to the bid.

Pace will be subcontracting out the Ecoli and enterococci analysis via MPN to Analysis Laboratories. Their LELAP accreditation is attached.

Pace will be subcontracting the herbicides by method 615 to Eurofins Savannah. Their LELAP accreditation is attached.

We appreciate the opportunity to respond to Bid #50-00144993, should you have any further question please reach out to me.

Sincerely,

Brynn Brown

Re: Amended Annual Scope of Accreditation

Dear Ms. Masterson:

On June 14, 2022, the Louisiana Environmental Laboratory Accreditation Program (LELAP) received a renewal application with a request for an amendment to your Scope of Accreditation. An addendum received June 23, 2022 requested more withdrawals. LELAP amends the Scope issued June 29, 2021, effective July 1, 2022, to remove the parameters listed on the attachment.

The Louisiana Department of Environmental Quality's laboratory accreditation program, in accordance with Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, accredits this laboratory for Fiscal Year 2023. This accreditation does not constitute an endorsement of the suitability of the listed methods for any specific purpose. The laboratory is accredited for the methods as identified on the application for accreditation; if the methods are partially identified on the application for accreditation, the laboratory is accredited for the versions listed on the current application or referenced in the laboratory standard operating procedure.

National Environmental Laboratory Accreditation Program (NELAP) accreditation is granted **only** for those methods/analytes for which "NELAP" is indicated as the type of accreditation. "STATE" is indicated as the type of accreditation for those methods/analytes for which accreditation by the Louisiana Environmental Laboratory Accreditation Program (LELAP) is granted. Accreditation of the environmental laboratory does not imply that a product, process, system, or person is approved by LELAP. Accreditation is dependent on the laboratory's successful ongoing compliance with regulations as outlined in the Louisiana Administrative Code, Title 33, Part I, Subpart 3, Laboratory Accreditation, and with the standards adopted by the NELAP Accreditation Council.

The accreditation certificate is the property of the State of Louisiana. Should your accreditation be suspended or revoked, your laboratory must return the certificate of accreditation to the department and delete any electronic copies until your accreditation status is restored.

LAC 33:I.5313.A and/or the 2009 TNI Standard require that the laboratory report include all relevant information. Therefore, the certificate number shall be placed in the upper right corner of all laboratory reports. If the test report includes results of any test for which the laboratory is not accredited, the unaccredited results must be clearly identified as such.

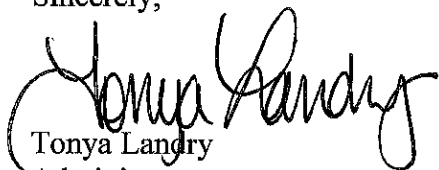

We request that you examine the scope of accreditation attachment for accuracy and completeness. If you find that an analyte for which you expected to be accredited is not listed, please examine your records to ensure that:

1. You have met the requirements for successful participation in proficiency test studies as outlined in LAC 33:I.4711 and in the 2009 TNI Standard.
2. In the case of accreditation by recognition, the requested analyte must be listed for the requested method and matrix on both the certificate issued by the Primary Accreditation Body *and* on the Louisiana application form.

If after reviewing this information, the scope and/or certificate are inaccurate, please notify us immediately.

If you have any questions, please contact your assigned assessor Elizabeth West, Environmental Scientist at (318) 676-7457.

Sincerely,

Tonya Landry

Agency Interest No. 30686
Activity No. ACC20220001

According to the Louisiana Administrative Code, Title 33, Part I, Subpart 3, LABORATORY ACCREDITATION, the State of Louisiana formally recognizes that this laboratory is technically competent to perform the environmental analyses listed on the scope of accreditation detailed in the attachment.

The laboratory agrees to perform all analyses listed on this scope of accreditation according to the Part I, Subpart 3 requirements and agrees to adapt to any changes in the requirements. It also acknowledges that continued accreditation is dependent on successful ongoing compliance with the applicable requirements of Part I and the 2009 TNI Standard by which the laboratory was assessed. Please contact the Department of Environmental Quality, Louisiana Environmental Laboratory Accreditation Program (LELAP) to verify the laboratory's scope of accreditation and accreditation status.

Accreditation by the State of Louisiana is not an endorsement or a guarantee of validity of the data generated by the laboratory. Accreditation of the environmental laboratory does not imply that a product, process, system, or person is approved by LELAP. To be accredited initially and maintain accreditation, the laboratory agrees to participate in two single-blind, single-concentration PT studies, where available, per year for each field of testing for which it seeks accreditation or maintains accreditation as required in LAC 33:I.4711.

**Agency Interest No. 30690
Activity No. ACC20220003**

According to the Louisiana Administrative Code, Title 33, Part I, Subpart 3, LABORATORY ACCREDITATION, the State of Louisiana formally recognizes that this laboratory is technically competent to perform the environmental analyses listed on the scope of accreditation detailed in the attachment.

The laboratory agrees to perform all analyses listed on this scope of accreditation according to the Part I, Subpart 3 requirements and acknowledges that continued accreditation is dependent on successful ongoing compliance with the applicable requirements of Part I and the 2016 TNI Standard by which the laboratory was assessed. Please contact the Department of Environmental Quality, Louisiana Environmental Laboratory Accreditation Program (LELAP) to verify the laboratory's scope of accreditation and accreditation status.

Accreditation by the State of Louisiana is not an endorsement or a guarantee of validity of the data generated by the laboratory. Accreditation of the environmental laboratory does not imply that a product, process, system, or person is approved by LELAP. To be accredited initially and maintain accreditation, the laboratory agrees to participate in two single-blind, single-concentration PT studies, where available, per year for each field of testing for which it seeks accreditation or maintains accreditation as required in LAC 33:1.4711.
