10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

**DEBARMENT CERTIFICATION FORM**

49	<p><b>Lineman Shoot</b>                      Item Specification: Rae Crowther 27'x12', The 27' x 12' is wide enough to allow 2 opposing rows of players to work drills simultaneously in different directions. Every Crowther chute comes with 8 standard wheels. And, each wheel is foam filled (not pneumatic); thus, it will never go flat. For teams that have to maneuver their chute through narrow openings we also offer optional caster wheels. You can adjust the height or angle of the chutes. The height is adjustable from approx. 63"- 60"- 57"- 54"- 51"- 48"- 45". You can adjust the angle of the frame to various degrees. Each Ground Battle Chute has a combination of metal square tubing and mesh netting for its frame. The obvious benefits are weight savings, improved safety when a player rises up, and fewer scratched helmets. This saves the player and the helmet. The not so obvious reasons are durability and adjustability. The netting has webbing sewn into it horizontally and vertically. It is very strong. When your season is complete, you unsnap the netting and bring it indoors. Simple. The problem with traditional chutes is the longer you make them, the heavier they become, and the more apt they are to bend or bow. The Ground Battle Chutes solve this problem in two ways. First, we suspend the frame from a crane platform that is strong. Then, we use a combination of metal tubing and tough outdoor mildew-resistant mesh netting for the frame.</p>	1	NO BID
