RE: MDCC Project #041224 Chiller Replacements

Good Afternoon,

My name is Reese Pate, Owner of RP Mechanical. We are interested in the referenced project. We are a Service Disabled Veteran Owned Small Business that has previously completed several federal projects. Please see attached for some of those projects.

We are primarily a mechanical contractor since inception; however, we also offer general, electrical, and civil construction services as well. RP Mechanical has a proven history of performing technical and environmentally significant projects, and has the capacity to perform this project along with our current workload. Our team has vast experience working for the federal government and more specifically the Department of Defense. We have read and understand the requirements of this project for Safety, Quality, and Environmental controls. We commit that the plans we submit for our management of these items will be comprehensive and completed prior to starting any work. Our superintendents, site safety officers, and myself possess OSHA 30 certifications related to the safety requirements required for construction projects. The following is our qualification information as requested. Please do not hesitate to contact me with any questions you may have.

Thank you for your consideration.

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.
Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.
