

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO X

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____ %

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF 8/15/26

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

DELIVERY: FOB JEFFERSON PARISH

Non-Public Works Bid

AFFIDAVIT

STATE OF Louisiana

PARISH/COUNTY OF Orleans

BEFORE ME, the undersigned authority, personally came and appeared: Brandon
Pellegrin, (Affiant) who after being by me duly sworn, deposed and said that
he/she is the fully authorized Officer of Spartan Acquisition Corporation (Entity),
the party who submitted a bid in response to Bid Number 50-00145087, to the Parish of
Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required
attachment):

Choice A _____ Attached hereto is a list of all campaign contributions, including
the date and amount of each contribution, made to current or
former elected officials of the Parish of Jefferson by Entity,
Affiant, and/or officers, directors and owners, including
employees, owning 25% or more of the Entity during the two-year
period immediately preceding the date of this affidavit or the
current term of the elected official, whichever is greater. Further,
Entity, Affiant, and/or Entity Owners have not made any
contributions to or in support of current or former members of the
Jefferson Parish Council or the Jefferson Parish President through
or in the name of another person or legal entity, either directly or
indirectly.

Choice B X there are **NO** campaign contributions made which would require
disclosure under Choice A of this section.

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____ Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the Parish to the Affiant.

Choice B X _____ There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

[The remainder of this page is intentionally left blank.]

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

Signature of Affiant

New Generation **Cobra "Tuffskin"**

Sewer Cleaning Hose

Poly-Flow has blended **over 25 years** of hose engineering and state-of-the-art technology to provide a new revolutionary line of **Cobra "Tuffskin"** Sewer Cleaner/Water Jetting Hose.

Building upon the current outstanding characteristic of our standard **Cobra** product, this new, proprietary, polyurethane cover compound has been specially formulated for outstanding low coefficient of friction (less drag), and superior abrasion resistance for the toughest of applications.

Better Coupling Retention

By utilizing a coupling with better cold flow characteristics, the **Cobra "Tuffskin"** hose has exceptional coupling retention.

The new **Cobra "Tuffskin"** product was not only designed for improved protection from the harsh environment, but for increased efficiency as well. Due to the special design, less water pressure is needed to move the hose, resulting in greater water pressure and jetting action at the nozzle.

75% - Coefficient of Friction

Test reports show that the new **Cobra "Tuffskin"** cover reduces the coefficient of friction by up to 75% over standard polyurethane covers (less drag).

Cobra Tuffskin

67% - Superior Abrasion

Tests report a 67% improvement in abrasion and chatter gouging over standard polyurethane covers with the new **Cobra "Tuffskin"** cover.

Thicker Cover

15-20% thicker cover for added protection.

Proprietary Tube

Specially formulated elastomer for a higher resistance to hydrolysis (water degradation) and improved flexibility.

Better Bond

Proprietary bonding process that provides exceptional adhesion – tube to braid and braid to cover.

Better Technology.
Better Hose.

Cobra Hose Packaging Specifications

Poly-Flow Cobra Sewer Cleaner hose assemblies are packaged on sturdy **wooden reels** as our standard specification.

Competitors offer less durable cardboard reels as their main packaging specification. They do offer a wooden reel at an additional charge of \$ 75.00, which equates to a \$.15/ft adder to the cost.

Poly-Flow's standard **wooden reels**:

- **Provide maximum protection from damage during transportation.**
- **Easy to handle in storage.**
- **Resistant to the effects of the weather (rain, heat, etc.)**
- **Provide easy transfer of product from the factory reel to the vehicle reel.**

FITTINGS & TOOLING FOR FIELD COUPLING OF COBRA SEWER CLEANING HOSE

POLYFLOW offers the **COBRA** Swage Tools for the field attachment of end fittings and menders. To assure proper matching of all components, the hose tube, material, end fittings, menders, and tooling must be color coded white. It is important to note that fittings and menders for thermoplastic hose are not necessarily interchangeable. By following the **COBRA** hose inspection instruction card (included with each reel of hose), and swage assembly instructions, the user can be assured of making an acceptable hose assembly.

COUPLINGS

Part #	Male Thread	Hose Size
8MP-8SC	1/2" NPTF	1/2"
12MP-12SC	3/4" NPTF	3/4"
16MP-16SC	1" NPTF	1"

MENDERS

Part #	Hose Size
SCM-08	1/2"
SCM-12	3/4"

POLY-FLOW

Series 4630

Cobra Sewer Cleaning Hose

3000 PSI Constant Pressure

Applications

- High Pressure Sewer Cleaning
- Sewer & Water Jetting Equipment
- **Not for Hydraulic Applications**

Features

- Bonded Construction
- Excellent Kink Resistance and Flexibility
- Blue Color Denotes 3000 PSI
- Low Coefficient of Friction
- Excellent Cut, Gouge and Abrasion Resistance

Construction

- Tube - Proprietary Elastomer (Green Color)
- Reinforcement - Two Polyester Braids
- Cover - Proprietary Polyurethane ("Tuffskin")
- Cover Color - Blue, Non-Perforated

Temperature

- 40°F to +135°F
- 40°C to +57°C

Part Number	Nominal I.D.		Maximum O.D.		Minimum Bend Radius		Maximum Working Pressure		Minimum Burst Pressure		Weight		Couplings
	in	mm	in	mm	in	mm	psi	bar	psi	bar	lbs/100 ft	kg/100 m

*** Standard Lengths - 400ft, 500ft, 600ft, and 800ft (other lengths available upon request)**

*** Note - Factory Assembly Only**

*** Note - Above hose meets the requirements of NSWMA and Wastec, and all specifications for repair and inspection procedures for high cleaning equipment pressure hose used in conjunction with sewer/catch basin**

COBRA sewer cleaning hose is engineered and manufactured to handle the toughest and most harsh conditions found in high-pressure sewer cleaning applications. Its thermoplastic composition and unique bonded construction allows for a flexible and light-weight hose, along with superior kink resistance, and improved fitting retention. The high tensile strength polyester reinforcement provides for exceptional low volumetric expansion and eliminates moisture absorption. **COBRA** also features a tough polyether-urethane ("**Tuffskin**") cover that offers maximum resistance to cutting, abrasion, various chemicals, and fungus.

In accordance with *WASTEC* (formerly *WEMI*) specifications, **COBRA** sewer cleaning hose offers a green colored inner tube and corresponding markings on all assembly components. **COBRA** hose cover colors conform to industry standards for maximum operating pressure ratings.

Made In USA

SERIES 4625 COBRA SEWER CLEANING HOSE – 2500 PSIG WORKING PRESSURE

		Nominal Size		Pressures		Min. Bend Radius	Weight Per 100'
		I.D.	O.D.	Max. W.P.	Min Burst		
Series #	Cover Color	Inches	Inches	PSIG	PSIG	Inches	(Lbs.)
4625-12	Orange	3/4	1.150	2,500	6,250	4.0	29.0
4625-16	Orange	1	1.465	2,500	6,250	6.0	38.0

Tube: Proprietary Elastomer (Green Color).
Cover: Orange Proprietary Polyurethane ("**Tuffskin**").
Branding: Black letter ink jet branding.

Reinforcement: Polyester Braid.
Temperatures: -40°F. to +150°F. (-40°C. to +66°C.)

SERIES 4630 COBRA SEWER CLEANING HOSE – 3000 PSIG WORKING PRESSURE

		Nominal Size		Pressures		Min. Bend Radius	Weight Per 100'
		I.D.	O.D.	Max. W.P.	Min Burst		
Series #	Cover Color	Inches	Inches	PSIG	PSIG	Inches	(Lbs.)
